Reviewer's report

Title: Siah1 Proteins Enhance Radiosensitivity of Human Breast Cancer Cells

Version: 4 Date: 4 May 2010

Reviewer: Anupama Munshi

Reviewer's report:

The paper by He et al entitled “Siah 1 proteins enhance radiosensitivity of human breast cancer cells” examines the effect of Siah1, its splice variant Siah1L and the Siah1 mutant with the RING finger deleted (Siah1#R) on radiosensitization of human breast cancer cells.

The manuscript in its present form is acceptable for publication. The authors have addressed all the concerns raised by the reviewers and have provided a detailed point by point response.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
