Reviewer's report

Title: Association of genetic polymorphisms in the interleukin-10 promoter with risk of prostate cancer in Chinese

Version: 2 Date: 30 July 2010

Reviewer: Victoria Stevens

Reviewer's report:

The revised manuscript has adequately addressed all the problems identified in the previous review.

Discretionary Revisions: Some redundancy remains between the material presented in the Background and Discussion sections, particularly in relation to information about IL-10. Removing this redundancy would improve the manuscript.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
