Reviewer’s report

Title: Expression of RNA interference triggers from an oncolytic herpes simplex virus results in specific silencing in tumour cells in vitro and tumours in vivo.

Version: 2 Date: 27 April 2010

Reviewer: John C Bell

Reviewer’s report:

I have read over the revisions of the article by Anesti et al and in my opinion they have done a satisfactory job of addressing my concerns. I think the paper is ready for publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
