Reviewer's report

Title: LATS2 is De-methylated and Overexpressed in Nasopharyngeal Carcinoma and Predicts Poor Prognosis of the Patients

Version: 3 Date: 8 April 2010

Reviewer: Miho Ohsugi

Reviewer's report:

Minor Essential Revisions

In the point-by-point response to my comment #4, although they stated that they referred Figures 2C-2F in consecutive order, but actually they didn't. Authors should interchange Figure 2C with 2D, and 2E with 2F toreferrer the figures consecutive order.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
