Reviewer’s report

Title: Oligodendroglioma of the ciliary body: Case report and a review of literature

Version: 2 Date: 12 August 2010

Reviewer: fable Zustovich

Reviewer’s report:

For me the title is still to be modified as there is no literature review as the case is unique...So it could be "...First case in literature..." or something like that.

About the 1p19q T accept the comment of the authors, it is not so important, interesting to know but not so important.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
