Reviewer's report

Title: Polymorphisms in Cyclooxygenase-2 gene and breast cancer risk in Brazilians: a case-control study

Version: 3 Date: 20 May 2010

Reviewer: James McKay

Reviewer's report:

Conclusions of the paper seems more appropriate in this version. Suggest that the authors use rs numbers to identify genetic variants rather than “8473TC” etc, which actually means very little

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
