Title: Tumour auto-antibody screening: performance of protein microarrays using SEREX derived antigens

Version: 2 Date: 14 September 2010

Reviewer: Mehul Sampat

Reviewer’s report:

The authors have answered most of my queries from the previous review and I do not have any other further questions.

For future reference, I suggest that the authors should submit a point-by-point response letter to the questions posed by the reviewers. This will make the review of the revised manuscript much easier for the reviewers.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
