Reviewer's report

Title: Angiotensin II type 2 receptor signaling significantly attenuates growth of murine pancreatic carcinoma grafts in syngeneic mice

Version: 2 Date: 25 September 2009

Reviewer: Diego F Calvisi

Reviewer's report:

The Authors have thoroughly and scrupulously modified the manuscript. In particular, all the concerns raised by the Reviewers have been satisfactorily and abundantly addressed in the revised version of the manuscript by adding new data and additional explanations. The manuscript is now more complete and will certainly have an important impact on the understanding of the role of Angiotensin II type 2 receptor in human pancreatic cancer.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
