Title: Differential expression of anterior gradient gene AGR2 in prostate cancer

Version: 2 Date: 11 November 2010

Reviewer's report:

I have reviewed the revised manuscript and think the authors have addressed all of my comments satisfactorily. The new meta-analysis enhances their work greatly and eliminates the need for the previous Western blot analysis.

There are one or two small typos should be corrected before the publication:
Page 7, line 5: ‘two pathologist’ should be ‘two pathologists’
Page 8, line 9: ‘Interesting’ should be ‘Interestingly’.
