Reviewer's report

Title: VEGFR2 heterogeneity and response to anti-angiogenic low dose metronomic cyclophosphamide treatment

Version: 2 Date: 9 November 2010

Reviewer: Urban Emmenegger

Reviewer's report:

In the revised version of their manuscript, Patten et al have addressed the issues raised with respect to the original submission so that the manuscript is now acceptable for publication.

Suggestion for minor editing of Result section, page 12 (with regard to Figure 6B): We found a significant increase in the proportion of #-SMA positive (i.e. “mature”) vessels in SW480 tumors (p < 0.05; Figure 6A & B).

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
