Reviewer’s report

Title: The 4q27 locus and familial prostate cancer risk

Version: 2 Date: 25 January 2010

Reviewer: Yen-Ching Chen

Reviewer’s report:

The 1st paragraph of Discussion should only address the mainfindings but not include statistical power information. The power information should be moved into statistical part of the Methods.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I declare that I have no competing interests.
