Reviewer's report

Title: A Kallikrein 15 (KLK15) single nucleotide polymorphism located close to a novel exon shows evidence of association with poor ovarian cancer survival

Version: 4 Date: 17 January 2011

Reviewer: Majid Masso

Reviewer's report:

All minor essential revisions have been successfully implemented by the authors. I do not have any requests for further revisions.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
