Reviewer's report

**Title:** Diagnostic performance of contrast enhanced CT and 18F-FDG PET/CT in suspicious recurrence of biliary tract cancer after curative resection

**Version:** 2  **Date:** 24 March 2011

**Reviewer:** Ambros J Beer

**Reviewer's report:**

This is a very nice revision of the first draft of the manuscripts and the comments from the reviewers have been addressed very extensively. The manuscript should be of interest to the readership of the BMC.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.
