Reviewer’s report

**Title:** Systemic Chemotherapy for Treatment of Advanced Small Bowel Adenocarcinoma with Prognostic Factor Analysis: Retrospective study

**Version:** 2  **Date:** 10 April 2011

**Reviewer:** Christopher Jackson

**Reviewer’s report:**

Minor improvements in English language required prior to publication. Satisfactory response and changes to initial review have been provided.

p6: Exclusion was due to ampulla of Vater and periampullary cancer (110 patients) and initially resectable disease (37).

=> "Patients with peri-ampullary cancer (110 patients) or initially resectable disease were excluded".

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.

**Declaration of competing interests:**
