Reviewer’s report

**Title:** Dietary Flaxseed Administered Post Thoracic Radiation Treatment Improves Survival and Mitigates Radiation-Induced Pneumonopathy in Mice

**Version:** 2  **Date:** 21 May 2011

**Reviewer:** Kei Iwamoto

**Reviewer’s report:**

I am satisfied with the responses to my comments. There are a few grammatical errors in the newly added paragraphs on pages 21-22: for example, "Rubin et al. [40] reported..." and "Our results also corroborates these reports as in the current study increased VEGF...", etc.

**Level of interest:** An article of outstanding merit and interest in its field

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
