Reviewer's report

Title: Zinc finger protein ZBTB20 expression is increased in hepatocellular carcinoma and associated with poor prognosis

Version: 2 Date: 17 May 2011

Reviewer: C. Bart Rountree

Reviewer's report:

The authors have addressed the original concerns/critiques in adequate fashion. There are no additional concerns or critiques noted in this revision. The revised manuscript is improved from the original.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this paper, either now or in the future?
Yes, I received a small research grant ($10,000 or less) from Bayer to investigate pediatric liver masses on imaging studies.

Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this paper, either now or in the future?
No.

Do you hold or are you currently applying for any patents relating to the content of the manuscript? Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?
No.

Do you have any other financial competing interests?
No.

Do you have any non-financial competing interests in relation to this paper?
No.
