Reviewer's report

Title: Epidermal Growth Factor Receptor (EGFR) mutation analysis, gene expression profiling and EGFR protein expression in androgen-dependent prostate cancer

Version: 2 Date: 4 January 2011

Reviewer: srikala sridhar

Reviewer's report:

Overall the authors have done a good job addressing the comments of the reviewers. They have indicated in several places these are only preliminary findings and that e larger studies are needed to confirm the findings. I recommend the paper can be accepted at this point.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interests
