Reviewer's report

Title: Repression of human Activation Induced cytidine Deaminase by miR-93 and miR-155

Version: 2 Date: 18 July 2011

Reviewer: Sergio Marchini

Reviewer's report:

In the revised version of the manuscript, the authors answered to the major points addressed in the first submission and added experiments to confirm their hypothesis.

No additional comments to the paper that can be accepted in the current version

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
