Reviewer's report

**Title:** A case of paraneoplastic syndrome mimicking Adult-Onset Still's Disease caused by advanced lung cancer

**Version:** 1  **Date:** 1 September 2011

**Reviewer:** najia hajjaj-hassouni

**Reviewer's report:**

This is an interesting case report, well presented and written. I would suggest to change the word "conclusions" by "discussion".

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
