Reviewer's report

**Title:** Mutational profiling reveals PIK3CA mutations in gallbladder carcinoma

**Version:** 1  **Date:** 11 October 2010

**Reviewer:** Robert D Goldin

**Reviewer's report:**

I think this is an interesting paper which makes a real contribution to understanding this relatively rare cancer. I have no significant criticism of it but it would improve the paper to know if the frequency of the mutation correlated with the ethnicity of the patients etc.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
