Reviewer's report

Title: Combined treatment of adenoid cystic carcinoma with cetuximab and IMRT plus C12 heavy ion boost: ACCEPT [ACC, Erbitux(R) and particle therapy]

Version: 1 Date: 7 February 2011

Reviewer: Dirk Rades

Reviewer's report:

The authors present a very interesting study proposal. The study including hypothesis, outline, goal, methods, and statistics (provided by a well-recognized statistician) is clearly presented. In my opinion, it does not need further improvement.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I have no competing interests.
