Reviewer's report

Title: Coffee consumption and risk of cancers: a meta-analysis of cohort studies

Version: 3 Date: 23 February 2011

Reviewer: Teresa Norat

Reviewer's report:

The only comment I have now for the authors is that the answers to the
reviewer's comment should have been more detailed. However, since the
authors took into consideration the reviewer's comments and modified the
manuscript accordingly, I think the manuscript should be accepted in its current
version.

Level of interest: An article whose findings are important to those with closely
related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a
statistician.

Declaration of competing interests:

I am working on meta-analyses of dietary exposures and cancer risk.
