Reviewer's report

Title: Tri-Modality Therapy with I-125 brachytherapy, external beam radiation therapy, and short- or long-term hormone therapy for high-risk localized prostate cancer (TRIP): study protocol for a phase III, multicenter, randomized, controlled trial

Version: 1 Date: 26 February 2012

Reviewer: Dirk Vordermark

Reviewer's report:

The study protocol is adequately presented.
The trial is already under way, nearing completion of recruitment.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
