Reviewer's report

Title: Nuclear expression of Rac1 in cervical premalignant lesions and cervical cancer cells

Version: 2 Date: 7 February 2012

Reviewer: Margaret E McLaughlin-Drubin

Reviewer's report:

Major Compulsory Revisions:
1) Discussion as to why the Rac inhibitor does not selectively inhibit proliferation of the cervical cancer cells is warranted.
2) Additional discussion as to potential mechanisms of Rho-GTPases in transformation would strengthen this manuscript.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
