Reviewer's report

Title: A mouse model for triple-negative breast cancer tumor-initiating cells (TNBC-TICs) exhibits similar aggressive phenotype to the human disease

Version: 4 Date: 18 January 2012

Reviewer: Jason Herschkowitz

Reviewer's report:

The reviewers have adequately responded to my recommendations especially with the limiting dilution data which significantly strengthens the paper.

The figure legends seem to have disappeared from this version of the paper (at least in my hands) and should be added back before acceptance for publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
