Reviewer's report

Title: Hepatitis viruses infection and risk of intrahepatic cholangiocarcinoma: evidence from a meta-analysis

Version: 2 Date: 6 June 2012

Reviewer: Giovanni Brandi

Reviewer's report:

The authors greatly improve the quality of their article by increasing the number of searched databases and expanding the search strategy; they also assessed the methodological quality of the included studies.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

no competing interest
