Reviewer's report

**Title:** C-reactive protein in patients with advanced metastatic renal cell carcinoma: Usefulness in identifying patients most likely to benefit from initial nephrectomy

**Version:** 2  **Date:** 11 July 2012

**Reviewer:** Danny Landau

**Reviewer's report:**

The article has address some of the problems I raised previously. While it wont change fundamental practice, it is appropriate for publication

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.
