Reviewer's report

**Title:** Additional Diagnostic value of Tumor markers in Cytological fluid for Diagnosis of non-small-cell lung cancer

**Version:** 1  **Date:** 31 July 2012

**Reviewer:** Robert Kratzke

**Reviewer's report:**

The paper demonstrates the potential utility of tumor markers in the diagnosis of lung cancer.

1) The authors have nicely noted the existing data on the subject. They have assembled a very respectable prospective series of patients.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, and I have assessed the statistics in my report.
