Reviewer's report

Title: PDGFRalpha/beta AND VEGFR2 polymorphisms in colorectal cancer: Incidence and implications in clinical outcome

Version: 1 Date: 16 August 2012

Reviewer: Takumi Ochiai

Reviewer's report:

Major Compulsory Revisions

My understanding is that there should be 3 Tables (1-3) and 4 supplementary Tables (1-4) in this manuscript.
But I could not find out Tables (1-3) in this manuscript!!
Where Tables (1-3) are?
This manuscript without Table 1-3 is very incomplete.
This manuscript does not deserve to peer review.

Author should clarify differences of the patient characteristics between PDGFR B19 WT and PDGFR B19 SNP.

Minor Essential Revisions

p2 (abstract)
l: 12
