Reviewer's report

Title: MicroRNA-100 is a potential molecular marker of non-small cell lung cancer and functions as a tumor suppressor by targeting polo-like kinase 1

Version: 3 Date: 24 October 2012

Reviewer: Klaus Strebhardt

Reviewer's report:

Minor Essential Revisions

Describing the central role of Plk1 for NSCLC, it is important to cite two articles that demonstrate that non-transformed cells are not addicted to the function of Plk1:

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
