Reviewer's report

Title: Proteins and carbohydrates in nipple aspirate fluid predict the presence of atypia and cancer in women requiring diagnostic breast biopsy

Version: 2 Date: 13 September 2011

Reviewer: Henry Mark M Kuerer

Reviewer's report:

Major Revisions:
None

Minor and Discretionary Revisions:
The Discussion could be improved if the authors elaborate a bit more on other studies in the field evaluating carbohydrate content of nipple aspirates in normal and women with atypia/cancer.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
None
