Reviewer's report

Title: Spatial morphological and molecular differences within solid tumors may contribute to the failure of vascular disruptive agent treatments.

Version: 4 Date: 20 September 2012

Reviewer: Chryso Kanthou

Reviewer's report:

Minor essential revisions

I think the authors should discuss the extent of necrosis in their tumour model or refer to their previous published work regarding this.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
