Reviewer's report

Title: Profound tumor-specific Th2 bias in patients with malignant glioma

Version: 2 Date: 4 July 2012

Reviewer: Kathrin Bauer

Reviewer's report:

Revision „Profound tumor-specific Th2 bias in patients with malignant glioma“, Shimato et al. BMC Cancer

In their response letter as well as the revised version of their manuscript, the authors responded to important points and significantly increased the solidity of their results. Particularly the addition of an ex vivo memory T cell analysis against GBM-associated antigens confirmed their conclusions.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
