Reviewer’s report

Title: The prognostic role of CD133 expression in colorectal cancer: a meta-analysis

Version: 2 Date: 1 October 2012

Reviewer: Rosa Artells

Reviewer’s report:

I’ve find the manuscript entitled "The prognostic role of CD133 expression in colorectal cancer: a meta-analysis" of interest because try to shed light on the prognosti role of CD133 using different studys that analyze the same characteristic. This manuscript is a compilation of results form different articles that demonstrate throught different studies the role of CD133 in the overall survival.

The recommendations of the others reviewers have been done but I suggest to the authors another revision of the language.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
