Reviewer's report

Title: Effects of partner proteins on BCA2 RING ligase activity

Version: 2 Date: 20 January 2012

Reviewer: Aki Ryo

Reviewer's report:

The authors have fully addressed concerns raised by reviewers. Although the underlying molecular mechanism has not been fully demonstrated, the overall quality of the current data really meets the general level of this journal. This manuscript should thus be published in BMC Cancer.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

No conflict of interest.
