Reviewer's report

Title: Resveratrol abrogates the Temozolomide-induced G2 arrest leading to mitotic catastrophe and reinforces the Temozolomide-induced senescence in glioma cells

Version: 2 Date: 27 February 2013

Reviewer: Renata Cozzi

Reviewer's report:

Dear Editor, I found that the authors have substantially responded properly to my criticisms. I suggest to accurately check the manuscript for grammar mistakes that are still present before publishing.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests'
