Reviewer’s report

Title: Peretinoin, an acyclic retinoid, improves the hepatic gene signature of chronic hepatitis C following curative therapy of hepatocellular carcinoma

Version: 3 Date: 19 February 2013

Reviewer: Ingeborg Tinhofer

Reviewer’s report:

In their revision the authors addressed all major points of criticism in a satisfactory manner. I have no further critical points and would thus recommend accepting the manuscript for publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
