Reviewer's report

Title: Analytic performance studies and clinical reproducibility of a real-time PCR assay for the detection of epidermal growth factor receptor gene mutations in formalin-fixed paraffin-embedded tissue specimens of non-small cell lung cancer

Version: 2 Date: 30 January 2013

Reviewer: Ite A. Laird-Offringa

Reviewer's report:

A well-written and detailed evaluation of a commercial product to measure EGFR mutations in paraffin embedded specimens

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
