Reviewer’s report

Title: Can selenium levels act as a marker of colorectal cancer risk?

Version: 1 Date: 13 February 2013

Reviewer: Rakesh Srivastava

Reviewer’s report:

I have reviewed the manuscript entitled "Can selenium levels act as a marker of colorectal cancer risk?" The manuscript is based on very limited studies and data. The authors have provided only one Fig to support their conclusion. With limited data it is very difficult to assess the quality of the work. Therefore, the manuscript may be suitable to other journal.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
