Reviewer's report

Title: MicroRNA profile of paclitaxel-resistant serous ovarian carcinoma based on formalin-fixed paraffin-embedded samples

Version: 2 Date: 11 February 2013

Reviewer: Martin Quinn

Reviewer's report:

The English language of this paper is much improved.

I CANNOT give an opinion on the scientific content as I do not have direct experience of microarray technology. I have tried to communicate this to the editorial team by several means - though without success.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
