Reviewer's report

Title: ADAR2 editing activity in newly diagnosed versus relapsed pediatric high-grade astrocytomases

Version: 3 Date: 25 September 2012

Reviewer: Gerrit Gielen

Reviewer's report:

In my opinion the manuscript has been improved by answering the reviewers' questions completely and in a satisfactory manner. The figures have been completed by statistic significances, the table has been simplified improving the clarity.

I recommend also to add the newly created figure as supplementary material (figure S1).

Level of interest: An article of importance in its field
