Reviewer’s report

Title: Connexin-43 can delay early recurrence and metastasis in patients with hepatitis B-related hepatocellular carcinoma and low serum alpha-fetoprotein after radical hepatectomy

Version: 13 Date: 8 May 2013

Reviewer: Albert Chan

Reviewer’s report:

The suggestions from my previous review have been adequately addressed. However, there are still some grammatical errors that need to be rectified.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
