Reviewer's report

Title: Clinical and experimental studies regarding the expression and diagnostic value of carcinoembryonic antigen-related cell adhesion molecule 1 in non-small-cell lung cancer

Version: 3 Date: 13 June 2013

Reviewer: Robert Kammerer

Reviewer's report:

The original criticisms are sufficiently answered and the paper can be published in the present form.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
