Reviewer's report

Title: Efficacy and Safety of Pharmacological Interventions in Second- or Later-Line Treatment of Patients with Advanced Soft Tissue Sarcoma: A Systematic Review

Version: 1 Date: 4 March 2013

Reviewer: Alexander Lazar

Reviewer's report:

The article does read well, the discussed issues are balanced and even-handed and the tables at the end of the manuscript are well-organized and helpful. I note that there are errors in references on papers 12, 13 and 14 that need to be repaired.
