Reviewer's report

Title: Prediction of Metachronous Multiple Primary Cancers Following the Curative Resection of Gastric Cancer

Version: 2 Date: 31 May 2013

Reviewer: Isao Nozaki

Reviewer's report:

(Comments for authors)

Major compulsory revisions
Now I feel this study is worthy for publication as far as I am concerned.

Discretionary revisions
It is better for the authors to avoid the use of ‘double negative’ in page 14. “Therefore, it is not appropriate to conclude that the screening program for MPC is not beneficial.”

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
