Reviewer's report

Title: Estrogen receptor alpha/beta ratio and estrogen receptor beta as predictors of endocrine therapy responsiveness - a randomized neoadjuvant trial comparison between anastrozole and tamoxifen for the treatment of postmenopausal breast cancer

Version: 2 Date: 15 August 2013

Reviewer: Tesa Severson

Reviewer's report:

Minor Essential Revisions:
Abstract paragraph 2, sentence 3: The sentence is unclear. Add "for" between "submitted" and "immunohistochemical"

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
