Reviewer's report

Title: Prognostic significance and therapeutic potential of the activation of anaplastic lymphoma kinase/protein kinase B/mammalian target of rapamycin signaling pathway in anaplastic large cell lymphoma

Version: 5 Date: 7 August 2013

Reviewer: Emmy D.G. Fleuren

Reviewer's report:

I am very pleased that in the revised manuscript, all original criticisms have been answered. The authors have put a lot of effort in the revision; they have added an in vitro study that strengthens their results, the manuscript is now well written and the pictures are of good quality.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
