Reviewer's report

Title: Methylene Blue-Assisted Technique for Harvesting Lymph Nodes after Radical Surgery for Gastric cancer: A Prospective Randomized Phase III Study

Version: 3 Date: 24 November 2013

Reviewer: Lai Meng Looi

Reviewer's report:

Minor Essential Revisions

1. The authors have not addressed the concentration of methylene-blue in the study. This should be standardised throughout the study.

The other revisions are satisfactory.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
