Reviewer's report

Title: Increased hospitalization of survivors of childhood lymphoblastic leukemia confined to those treated with cranial or total body irradiation: a case cohort study

Version: 1 Date: 27 January 2014

Reviewer: Rajaram Nagarajan

Reviewer's report:

Major Compulsory Revisions - there needs to be clarification to the purpose of the study (definition of hospitalization) and how the data is presented (please see attachment)

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
