Reviewer's report

Title: Functional deficiency of NBN, the Nijmegen Breakage Syndrome protein, in a p.R215W mutant breast cancer cell line

Version: 1 Date: 2 October 2013

Reviewer: Bohdan Gorski

Reviewer's report:

Authors reported of the first breast cancer cell line with NBN mutation that can provide a useful tool for further analysis of the molecular consequences of NBN deficiency. Moreover, authors provide evidence for the functional impact of the p.R125W substitution.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
